Annual Index

American Scientist, Volume 75, 1987

Abelson, Philip H. *Energy Futures*, Nov., 584.
Applequist, Jon. *Optical Activity: Biot's Bequest*, Jan., 58.

Beauchamp, Gary K. *The Human Preference for Excess Salt*, Jan., 27.
Brooks, Harvey. *What is the National Agenda for Science, and How Did it Come About?*, Sept., 511.
Brudvig, Gary. *American Scientist Interviews*, March, 122.

Case, Ted J., & Martin L. Cody. *Testing Theories of Island Biogeography*, July, 402.
Chevalier, Roger A., & Craig L. Sarazin. *Hot Gas in the Universe*, Nov., 609.
Conway Morris, Simon. *The Search for the Precambrian-Cambrian Boundary*, March, 156.
Cunningham, W. J. *Marginalia: Slinky, The Tumbling Spring*, May, 289.

Davis, Wade. *American Scientist Interviews*, July, 412.
DeNiro, Michael J. *Stable Isotopy and Archaeology*, March, 182.
Denning, Peter J. *The Science of Computing: Security of Data in Networks*, Jan., 12.
Denning, Peter J. *The Science of Computing: Evaluating Supercomputers*, March, 130.
Denning, Peter J. *The Science of Computing: Multigrids and Hypercubes*, May, 234.
Denning, Peter J. *The Science of Computing: Computer Models of AIDS Epidemiology*, July, 347.
Denning, Peter J. *The Science of Computing: Baffling Big Brother*, Sept., 464.
Denning, Peter J. *The Science of Computing: A New Paradigm for Science*, Nov., 572.
Dewees, D. N. *Does the Danger from Asbestos in Buildings Warrant the Cost of Taking it Out?*, May, 285.

Ellison, Peter. *American Scientist Interviews*, Nov., 622.
Engen, Trygg. *Remembering Odors and Their Names*, Sept., 497.

Gensel, Patricia G., & Henry N. Andrews. *The Evolution of Early Land Plants*, Sept., 478.
Gold, Paul E. *Sweet Memories*, March, 151.
Goodall, Jane. *A Plea for the Chimpanzees*, Nov., 574.
Grene, Marjorie. *Hierarchies in Biology*, Sept., 504.

Hildebrand, Milton. *The Mechanics of Horse Legs*, Nov., 594.
Hoffmann, Roald. *Marginalia: Plainly Speaking*, July, 418.
Hoffmann, Roald. *Marginalia: Unstable*, Nov., 619.

Jacobs, Barry L. *How Hallucinogenic Drugs Work*, July, 386.
Jensen, Roderick V. *Classical Chaos*, March, 168.

Koehn, Richard K., & Thomas J. Hilbish. *The Adaptive Importance of Genetic Variation*, March, 134.

Larson, Richard B. *Star Formation, Luminous Stars, and Dark Matter*, July, 376.

Madore, Barry F., & Wendy L. Freedman. *Self-organizing Structures*, May, 252.
Marcus, Joyce. *Prehistoric Fishermen in the Kingdom of Huarco*, July, 393.
Mark, Robert. *Reinterpreting Ancient Roman Structure*, March, 142.
McLerran, Larry, & Benjamin Svetitsky. *Making a Quark Plasma*, Sept., 490.
Moehlman, Patricia D. *Social Organization in Jackals*, July, 366.
Mulcahy, David L., & Gabriella B. Mulcahy. *The Effects of Pollen Competition*, Jan., 44.
Murray, James D. *Modeling the Spread of Rabies*, May, 280.
Myers, J. P., et al. *Conservation Strategy for Migratory Species*, Jan., 18.

Norstog, Knut. *Cycads and the Origin of Insect Pollination*, May, 270.

Peschel, Enid Rhodes, & Richard E. Peschel. *Medical Insights into the Castrati in Opera*, Nov., 578.

Rodger, John C., & Belinda L. Drake. *The Enigma of the Fetal Graft*, Jan., 51.

Sessler, Andrew M., & Douglas Vaughan. *Frec-Electron Lasers*, Jan., 34.
Shahani, Chandru J., & William K. Wilson. *Preservation of Libraries and Archives*, May, 240.
Sigma Xi, The Scientific Research Society
National Lecturers 1987, Jan., 104.
National Officers and Standing Committees, Sept., 462.
1987 Annual Meeting Program, Sept., 460.
Sommer, Jack. *A New Agenda for Science: Big Three, Little Four*, Jan., 112.
Sommer, Jack. *A New Agenda for Science: The Grass Roots Versus the Bird's Eye*, March, 224.
Sommer, Jack. *A New Agenda for Science: Triangulating the Terrain*, May, 336.
Sommer, Jack. *A New Agenda for Science: Mapping Federal Funding*, July, 448.
Sommer, Jack. *A New Agenda for Science: Scientists and the Public*, Sept., 560.
Swazey, Judith P. *Ethical Issues in Artificial and Transplanted Organs*, March, 192.

Taylor, Stuart Ross. *The Origin of the Moon*, Sept., 468.
Terborgh, John, & Margaret Stern. *The Surreptitious Life of the Saddle-backed Tamarin*, May, 260.
Thomson, Keith Stewart. *Marginalia: How to Sit on a Horse*, Jan., 69.
Thomson, Keith Stewart. *Marginalia: History, Development, and the Vertebrate Limb*, Sept., 518.

West, Bruce J., & Ary L. Goldberger. *Physiology in Fractal Dimensions*, July, 354.
Wingfield, John C., et al. *Testosterone and Aggression in Birds*, Nov., 602.
